

## **INTRODUCTION**

**India is a land where you see and practice the joint family concept. We are a family run business in the field of manufacturing of hardware in brand HEMCO which was established in the year 1986 as a company manufacturing Door closers and floor springs.**

**A business that was started by my grandfather, expanded by my father and nurtured by us.**

**Over the year we have added multiple products related to architectural and door hardware to our list and have become a market leader in many cities all over India. HEMCO products are convinced that its success, to a great extent, depends on the quality of its products and services, but also on the proficiency and motivation of its employees, as well as their commitment to the business objectives. ®**

**Today world is about newer ideas, new technology and diversity. We are here to diversity ourselves too.**

**We are a license manufacturer of ICAT (INTERNATIONAL CENTER AUTOMOTIVE TECHNOLOGY)**

**HEMCO trying to continually push over selves to do more and more , not just on the hardware side but also in terms of developer's tools so they can take advantage of the hardware that's there, in the best way.**

**The Blix cycles & E- Vehicle is founded by MR. ARPIT MAMTORA with the vision to create a greener value in the market by making such greener products which can help to lead environmental benefits for the betterment of human being and nature. Blix E-Bike headquarters is located in smart City Mumbai and manufacturing unit is located in Talasari which is 140.7 km from Mumbai.**

## **BLIX SCOOTER BENEFITS:**

**Blix is a new low-speed electric scooter has been launched in India with the super 8 model. We are here with our set of products of electrical scooters. Which are beneficial & affordable to all**

- Blix is available with 2+ 1 year motor and battery warranty.
- The electric scooter gets a one push start function, Handle lock function, Auto motor lock function
- Stylish Digital speedometer Detachable battery, Mobile charging function
- It is a low-speed scooter which means the speed is limited to 25 km/hr and it has a claimed range of about 50-60 km between charges.
- Blix is powered by lithium-phosphate portable battery that comes with what the manufacturer calls 'which makes the battery get locked inside.'
- The charging time for the battery is 3-4 hours and the scooter also features regenerative breaking. The electric scooter also features a mobile phone charger.

**Product line up:** Believe in a product that goes a long way. Our scooters have been carefully designed with best in class technology. Featuring the technology that is working wonders by being energy efficient and equally admired by the customers.

**VISION & MISSION:** Blix promises to bring the latest technology and State-of-the-art design to the Indian Consumer. We believe that our business is not just about building a loyal customer base, but also about building a better, cleaner and greener future for the generations to come. As an ambitious player of India's evolving E-bike market, we wish to be the benchmarks of affordable eco-friendly technology.

### **Eco-friendly Choice**

For those that love to save the environment, an electric scooter is a great choice to go with. Not only can you benefit from the scooter, but you can also help the earth benefit from it. There are no harmful emissions going into the atmosphere and you don't have to worry about engine noise or pumping gas into the motor flowing from a battery.

Electric scooters come with definite advantages. They have a sleek design and other features to provide you with trouble-free riding experience on any surface. Since different companies manufacture electric scooters, it's crucial to have a general idea of these scooters before making a final decision. Then you can choose the best electric scooter for you and your kids also.

**Manufacturing Excellence:** At Blix E-Vehicle our engineers are working in a factory where international quality and safety standards are followed to manufacture best highest quality eco-friendly vehicles.

- Highest Quality
- Comfort & Styling
- Affordability

- No Emission
- Customer Satisfaction
- R&D (Research & Development) – We believe in latest technology that what exactly our engineers are doing in best way.
- Teamwork - " Without trust we don't truly collaborate; we Merely coordinate or, at best, cooperate. It is trust transforms a group of people into a team."

**Core Value:** Honesty + Co-operation + Innovation = Teamwork

### **After sale service**

**We believe “Customer service should not be a department; it should be the entire company.”**

**We truly delighted that we build a strong relationship from last 30 years with our hemco customers.**

**Now we believe that we will get the huge success from our new Blix customers...**

### **OUR MILESTONES**

**At Blix, our milestones are guided by one aim - to create vehicles that push the limits of technology while still creating a planet that is lush and thriving. This saw we develop the state-of-the art technology that is best in class while still being affordable for all. With a clear goal in mind, we are sure more such innovations will come forth and help fulfil our promise to you and Mother Nature.**
